

WOMEN and CHILDREN FIRST

June 13 & 14, 2010

*The origin of the phrase, **Women and Children First** specifies a principle, a practice or a protocol to be set in motion when a risk or threat presents itself. Now is the time.....*

Based on the felt needs of women, parents, families, children, youth and caregivers, a support gathering will be held just prior to the Canadian Aboriginal AIDS Network AGM (June 14-18, 2010). Kimamow Atoskanow Foundation, as the Alberta HIV/AIDS host organization, invites you to "**Women and Children First**", a grassroots gathering where we will create a safe and supportive environment for people to share information, resources and experiences that promote a healthy response to HIV/AIDS and related lifestyle concerns. If you plan to attend, want to volunteer or can donate resources for this event, contact KAF.
